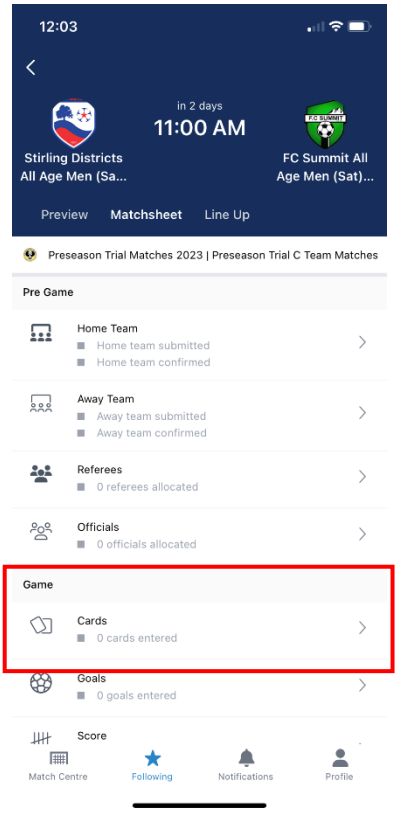
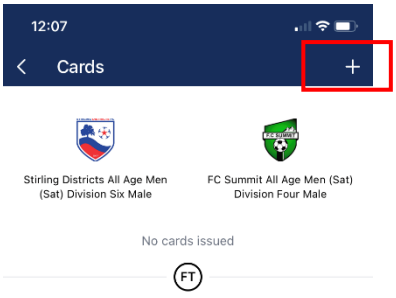
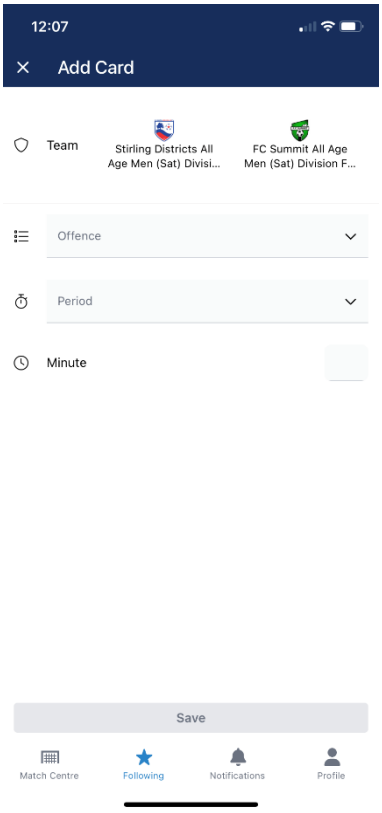
How to perform Post Match Tasks on Dribl

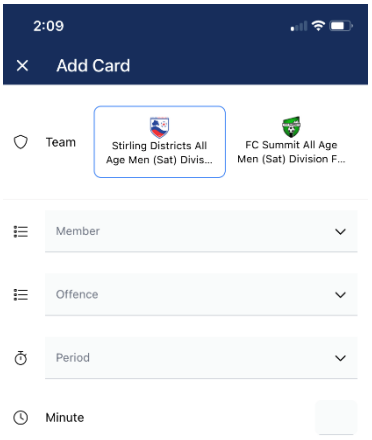
At the Conclusion of your fixture, your Club Referee for home match will need to advise the Team Manager or Coach of the final results (Including cards & goal scorers) so that this can be entered into the Dribl App.





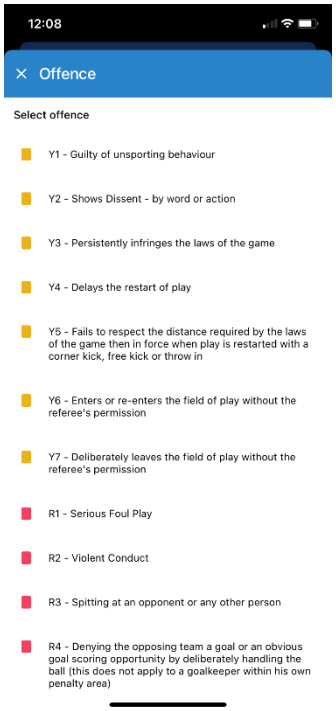
Select the '+' button.





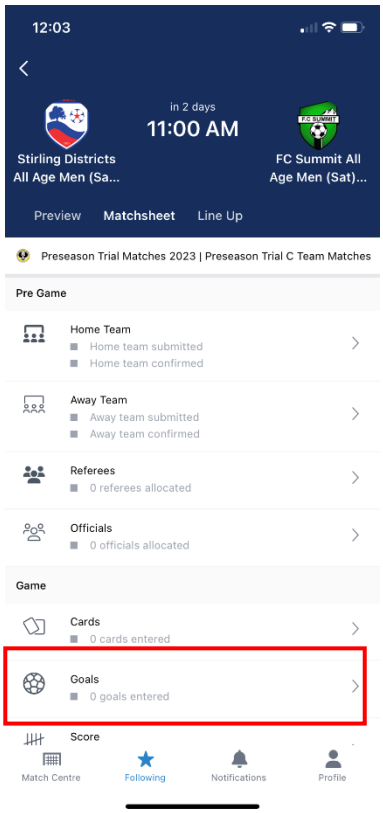
Select the Club, so that you can select the player that received a card.

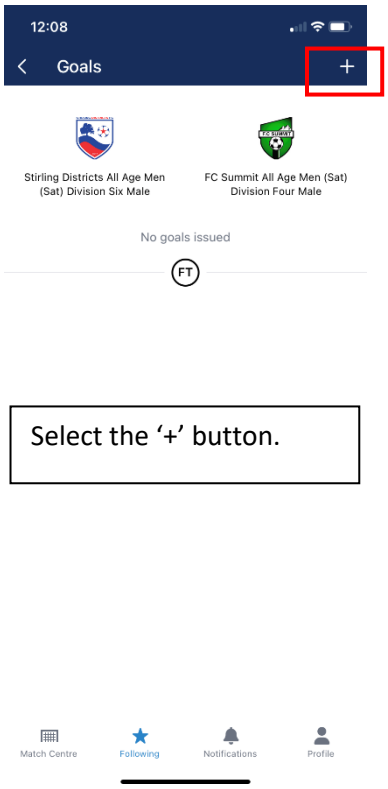
Select the relevant name from the list on the screen.



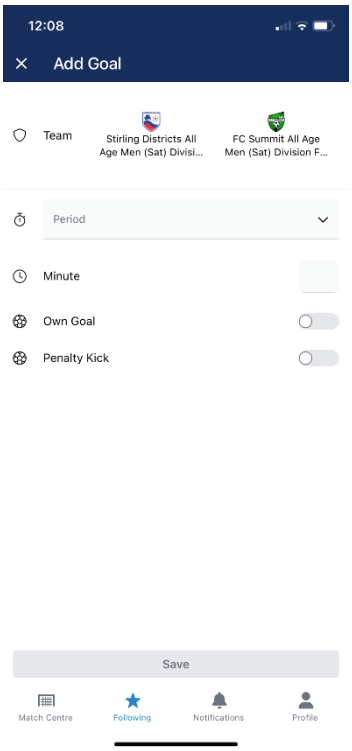
Select the relevant card, if the card was in the first or second half and the minutes the offence occurred and the save at the bottom of the screen.

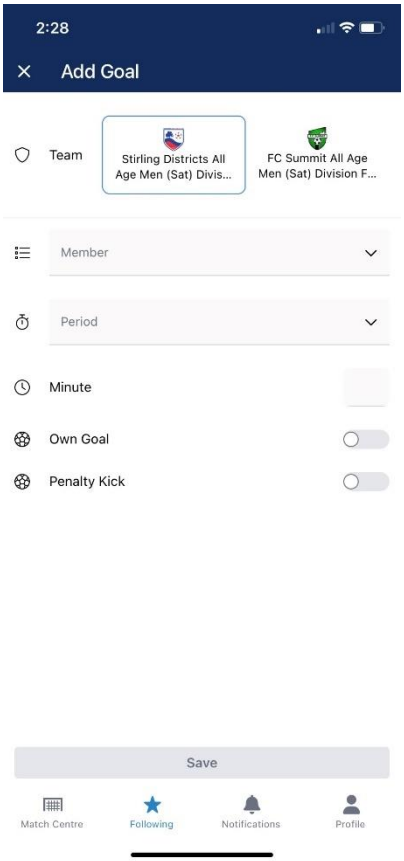
Next enter the goal scorers





Select the '+' button.





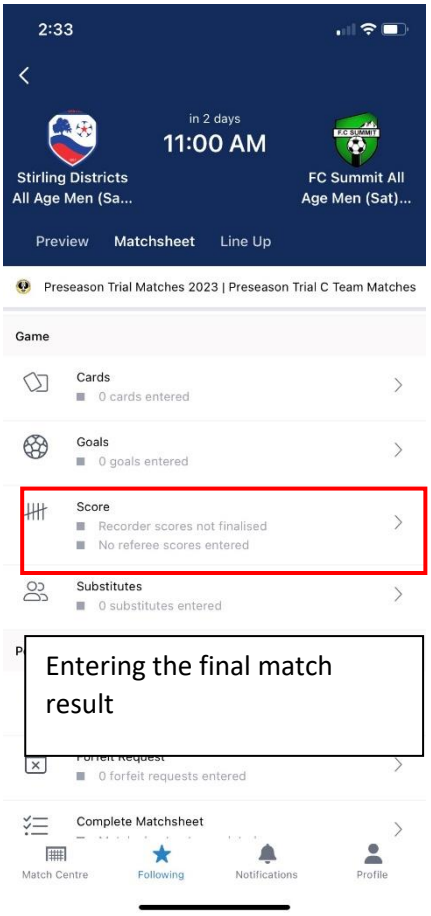
Select the Club, so that you can select the player that scored the goal.

Select the relevant name from the list on the screen.

Select if the goal was in the first or second half and the minutes the of when the goal occurred. If relevant select own goal or penalty kick.

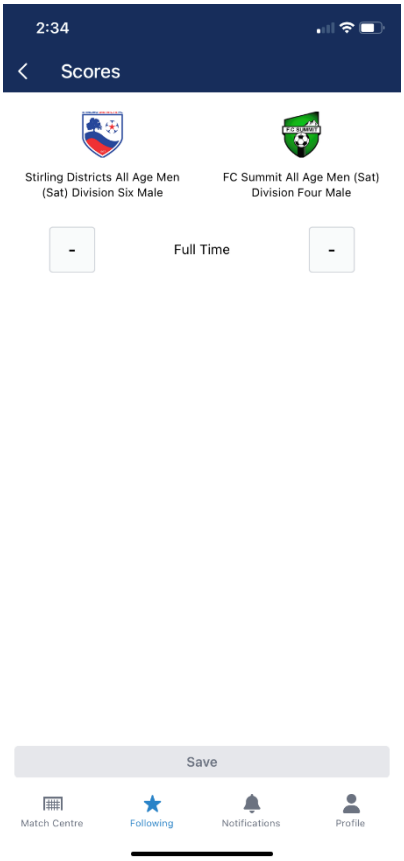
Select save at the bottom of the screen.

Complete this for all relevant goal scorers for each team

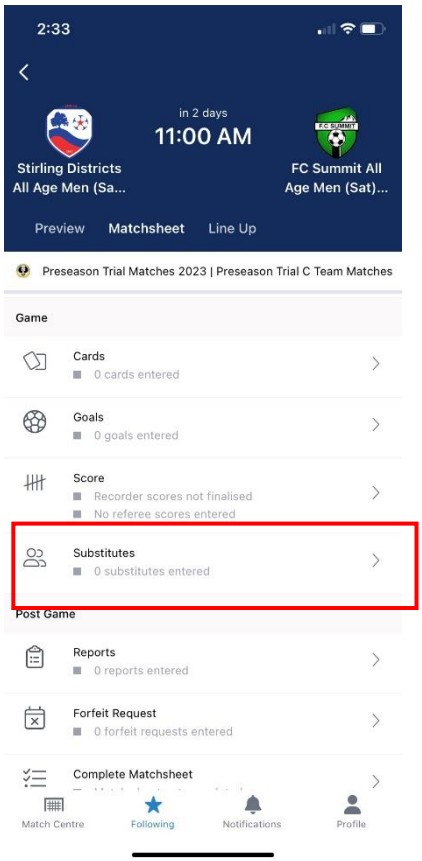


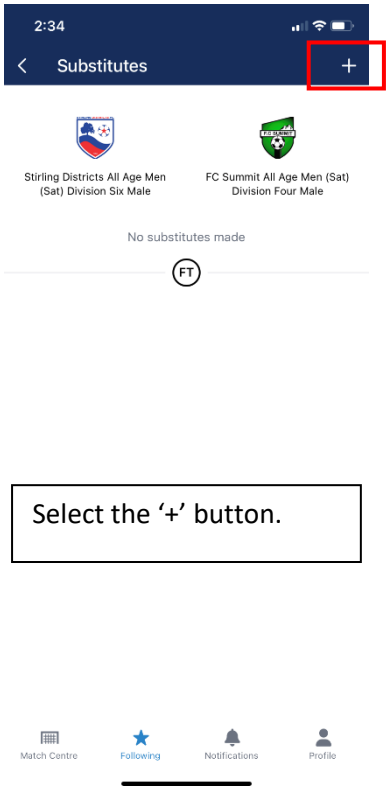
Entering the final match result

Enter the final score and select save.

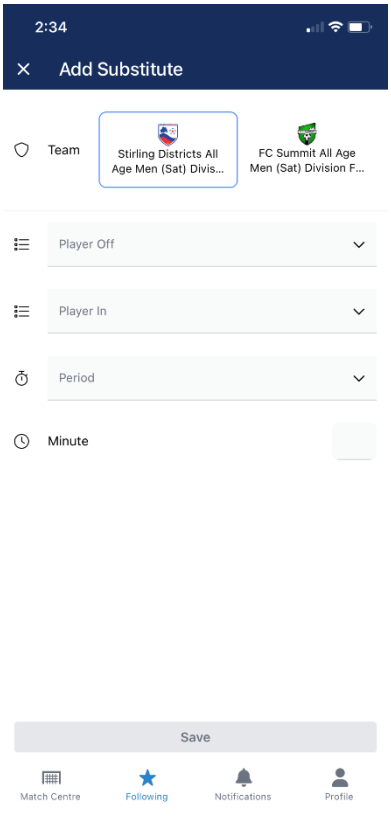


Enter any substitutes.





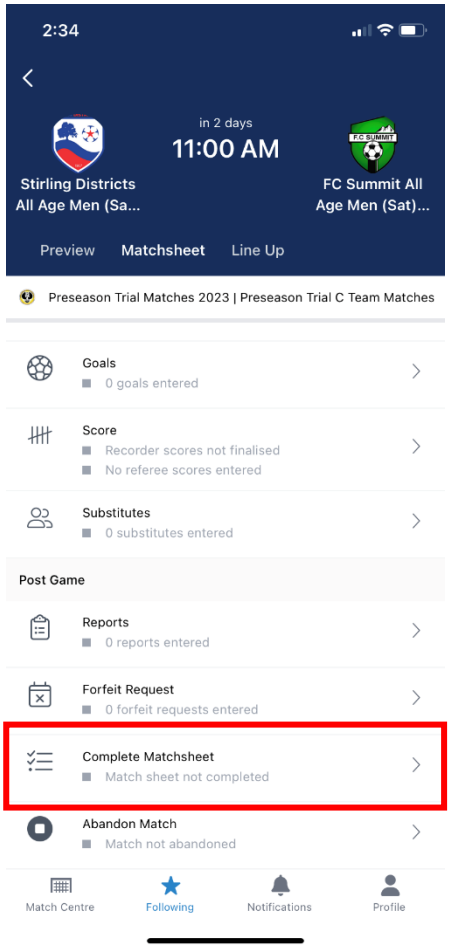
Select the '+' button.

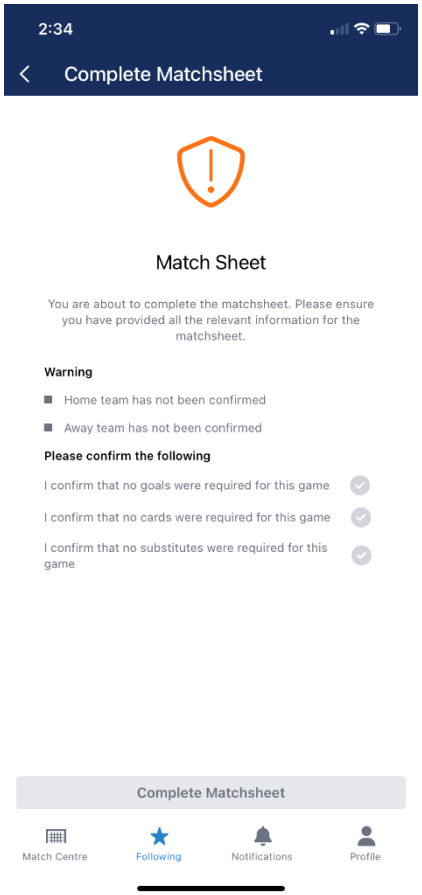


Select the Club, so that you can select the relevant substitutions.

Click save and continue to enter remaining substitutes.

Once all the cards and goal scorers have been entered then select the Complete Match Sheet





Click on complete Match sheet.
